PROFESSIONAL SUMMARY

Software Engineer with experience delivering AI-powered applications and enterprise software through internships and academic projects. Interested in backend engineering, intelligent systems, and building scalable software that solves real-world problems.

EXPERIENCE

Software Engineer Intern | *Geojit Technologies Pvt Ltd* Jan 2026 – Apr 2026

- Designed and implemented a computer vision-based document processing pipeline using **Python**, **FastAPI**, **OCR**, and **React**, enabling automated extraction of handwritten data through REST APIs.
- Collaborated with the development team while working with **AngularJS**, **JavaScript**, **Microsoft Azure**, **Postman**, and **Android Studio** for API testing, frontend enhancements, cloud deployment workflows, and application development, gaining practical experience across the Software Development Life Cycle.

Salesforce Virtual Intern | *SkillWallet (Salesforce)* May 2025 – Jul 2025

- Developed a Salesforce CRM solution for **vehicle inventory and supply chain management** using Flow, Lightning App Builder, Custom Objects, and Dashboards, enabling inventory tracking, and automated workflows.
- Completed hands-on **Salesforce Trailhead projects** by configuring CRM workflows, creating automation with Flow, developing reports and applying best practices for business process automation and data management.

TECHNICAL SKILLS

Languages	Python, Java, C, SQL
Frameworks & Libraries	FastAPI, Django, React.js, Angular, Node.js, Tailwind CSS
Databases	PostgreSQL, MySQL, MongoDB
Tools & Platforms	Docker, Git, Linux, Postman, Power BI, Oracle Cloud Infrastructure (OCI)
Core Concepts	Data Structures & Algorithms, OOP, REST API Design, System Design
AI/ML	PyTorch, OpenCV, LangChain, Hugging Face Transformers

PROJECTS

Cloud-Based NAAC Data Management System | *Django, React, PostgreSQL, Docker*

- Colleges managing NAAC accreditation dealt with scattered documents, inconsistent access, and no structured follow-up. Developed a **centralized platform** that streamlines accreditation by allowing institutions to securely manage records with **role-based access control** for administrators, faculty, and reviewers.
- Implemented **student achievement** and **AICTE point approval workflows**, allowing document verification, PDF report generation, and centralized evidence management for accreditation review.

Intelligent Document Processing System | *Python, FastAPI, OpenCV, TrOCR, PyTorch*

- Manual processing** of handwritten documents is time-consuming and error-prone. Developed an intelligent document processing system that automatically extracts structured information from scanned documents using **GPU-accelerated deep learning inference**, reducing manual effort and improving processing efficiency.
- Implemented **batch document processing**, allowing users to process and export multiple documents efficiently through a user-friendly interface.

HealthMate – AI Health Companion | *Python, FastAPI, Gradio, SQLite*

- Patients in smaller cities often struggle to find nearby doctors or get basic health guidance quickly. Built a **multi-modal AI assistant** that accepts **voice**, **text**, and **image** inputs, powered by **LLaMA 3 Vision** and **Whisper**, making health information accessible through a conversational interface.
- Designed a **location-aware doctor recommendation** feature using Haversine distance across a large dataset, with **JWT authentication** and conversational memory for contextual follow-up queries.

EDUCATION

B.E. Computer Science & Business Systems | *SJEC, Mangalore* **CGPA: 8.94**
Visvesvaraya Technological University 2022 – 2026

12th (Class XII) | *St Aloysius PU College, Mangalore* **85.3%**
Karnataka State Board 2022

CERTIFICATIONS & COURSES

Oracle Cloud Infrastructure (OCI): *Generative AI Professional, AI Foundations, Foundations Associate*

NPTEL (Swayam): *Cloud IoT & Edge ML, Applied Positive Psychology, Privacy & Security in Social Media*

Salesforce: *Agentblazer Champion (Dev), Agentforce AI Foundations, Developer Catalyst V3.0*

Cisco Networking Academy: *Introduction to Cyber Security*

IBM Developer Skills Network: *Data Science 101*
