Sohan D Souza

Aspiring Software Engineer | AI/ML, Full Stack Development,
Salesforce | Building Real-World Applications
Mangaluru, Karnataka, India

Summary

Currently pursuing a degree in Computer Science and Business Systems at St Joseph Engineering College, Mangaluru, with a curriculum that integrates computer science fundamentals with business strategies and project planning. Educational focus includes programming, software engineering, artificial intelligence, and cloud computing.

Contributing as an AIML - Full Stack Intern at Geojit Technologies, leveraging skills in React.js, IPG CarMaker, and Microsoft Office to support technical projects. Committed to combining technical expertise with business knowledge to tackle challenges innovatively and deliver impactful results. Dedicated to continuous learning and applying emerging technologies to meet organizational objectives effectively.

Experience

Geojit Technologies
AIMI & Full Stack Intern
January 2026 - April 2026 (4 months)
Kochi, Kerala, India

- Developed AI-powered applications by integrating LLMs and machine learning models into full-stack systems using Python and React.
- Built OCR-based document processing pipelines for structured data extraction from handwritten and printed forms.
- Created multimodal AI pipelines using Whisper and LLMs for speech-to-text and response generation.

Team SJEC Racing
3 years 2 months

Team Captain
March 2025 - April 2026 (1 year 2 months)
Mangaluru, Karnataka, India

Technical Team Member

March 2023 - May 2025 (2 years 3 months)

Mangaluru, Karnataka, India

Salesforce

Intern

May 2025 - July 2025 (3 months)

India

- Developed CRM automation workflows using Salesforce Flow to enhance operational efficiency.
- Built applications with Lightning App Builder, creating user-friendly interfaces for improved user experience.
- Implemented dashboards for reporting and analytics, enabling data-driven decision-making.
